

Bagging needle point

Needle Bagging

- 125mm (5") each 208 866 \$4.55
- 150mm (6") each 208 867 \$5.35
- 175mm (7") each 208 868 \$6.45

Big hardened-steel needle useful for sewing up all manner of bags and canvas repairs. Large eye takes string with ease. Angled, non-cutting spear point makes adequate hole to pull through. Length is o.a.

Needle Upholstery Curved

- 50mm each 215 609 \$1.95
- 75mm each 215 610 \$2.45
- 100mm each 215 611 \$2.95

Nickel-plated cast-steel needles are very strong. Round point, useful for all sewing work where cutting of hole is not wanted. Dimension is length across point to eye.

ON SPECIAL

Needle Upholstery Straight

- 250mm each 215 612 \$10.55 ~~\$7.95~~
- 300mm each 215 613 \$12.95 ~~\$7.95~~
- 350mm each 215 614 \$13.85 ~~\$7.95~~

Nickel-plated cast-steel needles are very strong. Round point for all sewing jobs where cutting of hole is not wanted. Length is overall.

Not to scale

Needle Butcher's

- 300mm straight ea 215 625 \$12.95
- 300mm angled ea 215 624 \$12.95

Stainless steel needle with spear tip for easy and safe meat penetration. This is a very large needle, with a good-size eye. (Pictured is angled needle.)

THERMOMETER....

Hygrometer Digital Indoor

210 535 \$34.95

Big screen with both temperature and humidity displays. Also time display. Press button for maximum and minimum display, and for °C or °F. Temperature range -50°C to +70°C. Humidity 10% to 99%. Powered by 1 x 'AAA' battery (included).

Digital Indoor/Outdoor Premium

206 815 \$49.95

This multi-screen device is suitable for monitoring indoor and outdoor temperature and humidity at the same time, in Celsius or Fahrenheit. It also stores for recall the maximums and minimums for both temperature and humidity. Supplied with 2-metre long cable remote probe. Temperature range -40°C to +50°C. Dimensions 11cm high x 7cm wide x 22mm thick. Suitable for wall or desk mount. Powered by one 'AAA' battery (included). Easy to use. Full instructions included.

MILK VAT TEMPERATURES

A regular issue for dairy farmers is testing or monitoring milk vat temperature. We believe our remote-probe digital thermometers can solve the safety issues of potential mercury or glass contamination of milk.

Soil Temperature Plastic

206 828 \$22.95

This higher quality thermometer is ideal for reading deeper soil temperatures. The sensing bulb can be buried up to 15cm, with the scale still visible. Sturdy green plastic case, with red top-knob for easy location in the garden. Capillary scale from 0 to 80°C. Length 32cm o.a.

Soil Temperature Metal

bi-level 206 825 \$26.95

A good strong instrument to leave in the field or garden. Metal shaft encasing a glass °C capillary thermometer. Incorporates two separate thermometers to give either soil plus air temperatures, or deep plus shallow soil temperatures. Nickel plated finish. 30cm long o.a.

Outdoor Mercury

206 807 \$21.95

Classic outdoor mercury thermometer with minimum and maximum pins in the capillary tubes. Pins are moved back to the mercury by operation of the central press button. A small fold-up 'roof' gives weather protection. Temperature range -40°C to +50°C. Length is 23cm o.a.

Outdoor Non-Mercury

215 410 \$24.95

Classic outdoor thermometer, but with alcohol instead of mercury. Minimum and maximum pins. Reset with central push-button. Fold-up 'roof'. Length 23cm o.a.

NB: Some column-fluid separation may be noticed on receipt of this thermometer. This can generally be rectified by 'flicking' the thermometer smartly downwards, to shake air bubbles out of columns.

Soil Temperature Digital

213 478 \$20.95

Handy fast-reading thermometer for obtaining soil temperatures. Celsius or Fahrenheit. Simple On/Off start button. Probe 13cm long. Supplied with probe-protector with pocket clip. Length 21cm o.a.
