CALVING....

Rope Economy

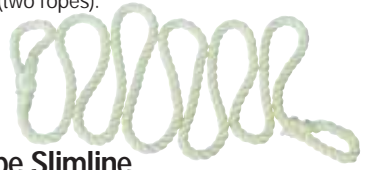

single-eye each 201 061 \$14.95
double-eye each 201 060 \$19.95
7mm-dia polypropylene ropes. Single version is 1.1m long with eye splice one end. The double version is 1.6m long with eye splices at both ends. Supplied each. Two of these should be used for assisting calving.

PRICE REDUCED

Ropes Lightweight - Pair

pair 209 915 \$25.95
Lightweight 4mm-dia nylon ropes with eye splices both ends, sealed for durability. Also useful as lambing ropes. Length 1.5m o.a. Supplied as a pair (two ropes).

Rope Slimline

each 201 063 \$22.95
Soft synthetic rope, 8mm x 1.5m, specially made for obstetrics. Small finely-spliced eye loop both ends. Excellent for internal uterine use. Best used as a pair.

Rope Flat Braid

9mm each 213 186 \$16.95
12mm each 211 076 \$19.95
Soft, safe, flat-braid rope made especially for Shoof. Featuring 'stitched flat' areas before each eye loop. These create flat 'pads' around the ankles of the calf so as to prevent any tissue damage when pulling. Length is 1.8m for each, long enough to go around your back for easier pulling.

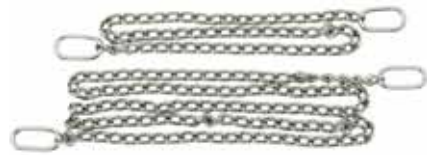

Strap Heavy Duty

each 201 064 \$19.95
All purpose calving strap of double-layer heavy-duty 25mm webbing with stainless steel D-rings double-stitched each end. Length 1.5m o.a. Best used as a pair.

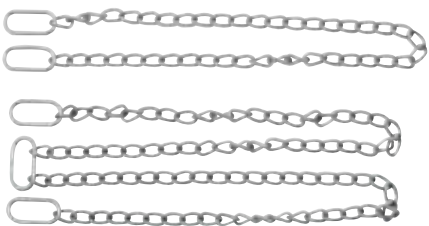

CALVING CHAIN LENGTHS

After considerable testing, and professional veterinary advice, we have chosen 80cm (short) and 150cm (long) as ideal calving/obstetric chain lengths. The short chain is intended for use in a pair, whilst the long chain can be used on its own, with each end connected to a leg. (We recommend the short chains, used as a pair, as the most appropriate for the job). The long chain is useful as a head-chain also. When fitting on calf legs, best use double loop to reduce skin damage.

Chain Nickel-plated

short 80cm 201 054 \$34.95
long 150cm 201 053 \$49.95
Our nickel plated calving chains are of top quality USA manufacture, tested to over 500kg. Hardened, and nickel plating for long life. Oval end loop for easy internal use. Supplied as each.

Chain Stainless Quality

short 80cm 201 059 \$29.95
long 150cm 201 058 \$39.95
These are our top quality chains. The 150cm chain features an intermediate loop-link for greater versatility especially when used with a pulling device. 160kg tested breaking strain. Supplied as each.

Strap Heavy Duty Comfort

each 201 065 \$29.95
The Comfort version of our calving strap has special additional hand-grip loops 50cm out from the ring ends. The strap is 2.5m long overall, allowing it to go around the back of the user. When assisting calving, especially when the cow is lying down, the user can use his or her legs, and the hand grips to assist purchase (only one required). Made from double-layered 25mm webbing with stainless steel D-rings. Only one strap is required.

Chain Handle

each 201 051 \$19.95
Strong stainless steel handle to use with our calving chains. Hooks in end loops or between any links. Top quality manufacture. Plastic grip. Two required for correct use.

PRICE REDUCED

Chain Handle Lightweight

208 810 ~~\$19.95~~ only \$17.95
All stainless steel. Will hook into or across calving chain links. Use two of for correct use.

WARNING ABOUT CALVING CHAINS
Calving chains should not be used with mechanical calf pullers, for the following reasons:
1. The chain links can do serious damage to the calf's leg.
2. The chains may break under the excessive force sometimes applied.
Only use ropes with mechanical calving aids.

CHAIN CORROSION
All calving chains will corrode, including stainless steel chains, if left lying in antiseptic solutions for extended periods. To prevent corrosion, wash chain after use, and store dry.

Scissors Teat Cutting

13cm 207 571 \$17.95
17cm 207 572 \$19.95
These rounded tips curved scissors are the ideal tool for cutting extra teats from calves. Also useful for other minor surgical procedures. Shoof brand, standard quality. Stainless steel. Dimension is length o.a. Length is user preference only.

Obstetric Gown Heavy Duty

204 880 \$199.00
No need to have to wash all your clothes after a calving job. Arms-free adjustable sleeve seals. Neck to boots with no openings. Waterproof and easily cleaned. Use for any obstetrical jobs. Long life rip-free laminated fabric in discreet colour. One size only, approximately medium to large.
