

BOOK....

"Goatkeeping 101"

210 615 \$79.95

As its name implies, this book has all the basics, plus huge amounts of advice and information of great value for the beginning breeder, and for the 'old hand'. Soft cover, 256 pages, with comprehensive index and lots of photos and diagrams.

"The Goatkeepers Veterinary Book"

200 854 ~~\$69.95~~ \$59.95

A standard veterinary reference work for all goat keepers. Peter Dunn (author) is a vet surgeon and goatkeeper/breeder in France. Includes a goatkeeper's calendar of particular interest in preventive medicine planning. Hardback, 210 pages, colour.

"Raising Milk Goats Successfully"

200 852 \$49.95

A good book for the beginner, covering basic management, nutrition, rations, housing, kid care, breeding, health, showing, plus sections on how to choose sires and dams. Lots of information. Paperback 172 pages.

"Goat Health Handbook"

200 845 ~~\$84.95~~ \$79.95

If you raise goats you absolutely should have a copy of this book even if you have no others! Divided into 5 sections: diagnostic guides, disease description, therapy, treatment techniques, birth and newborns. Lots of tables and illustrations. Spiral bound paperback 123 pages.

"The Veterinary Book for Sheep Farmers"

200 857 ~~\$94.95~~ \$84.95

The world's leading veterinary manual for sheep farmers. Although produced in the UK and using that farming model, the information is directly applicable to sheep farming worldwide. Full of black and white photographs and detailed diagrams. Hard cover, 690 pages. Good index.

ON SPECIAL

Sheepmat on a plywood base in a sheep yard.

Sheepmat

standard (black)	203 660	\$139.00	\$99.00
premium (blue)	203 658	\$155.00	

The Sheepmat is manufactured in the same tradition as the famous Hoofmat for cows. The Standard model uses 25mm foam with black outer polyfabric and the Premium model uses 31mm foam in a premium quality blue fabric outer. This should suit most existing race systems but the mat must be placed on concrete, wood, or other impervious surface. For successful treatment use in a situation where the animals will not be walking in dirty conditions, or for long distances, immediately after crossing the mat. Management systems may have to be developed to enable lame or at-risk animals to be treated to cross the mat at least once per day. Sheepmat can be used with about 10 litres of 20% copper sulphate solution, or other remedy as may be recommended by your veterinarian. Size of the sheepmat is 1.5m long x 0.46m wide.

Footrot Trough 2.4m

211 416 \$255.00

Designed to fit in a raceway for easy footrot treatment of sheep and goats. Sloping ends prevent leg damage. Ribbed base prevents slipping. Strong plastic manufacture will not rot or crack. Easily moved and emptied. Dimensions: 2.4mL x 34cmW x 20cmD. Capacity approx 70 litres.

Gestation Calendar Goat

213 037 \$22.95

Even experienced breeders will find this simple rotating chart handy. Just set the inner disc to breeding date, and all other important dates are indicated. Calendar is 22cm square o.a. All waterproof materials.

Marking Rings Shoof (Green)

100-bag	207 518	\$4.50
500-pail	207 520	\$16.50
