Sheep Netting Ovinet

50m x 90cm	214 432	\$255.00	\$239.00
50m x 108cm	211 898	\$279.00	
spare post only	210 826	\$12.95	

This electrifiable netting is designed and manufactured specially for containing and protecting sheep and goats. It is available in heights of 90cm and 108cm, and is completely flexible, using non-electrified vertical nylon strands which are welded at every crossing to the electrified horizontal strands. Current is through three stainless wires in each strand, except for the bottom strand which is not electrified. Vertical strands are 17cm apart, for good integrity of the fence. Each 50m fence includes 14 dual-prong step-in plastic posts. Fence lengths can easily be connected for longer runs using the combined loom at each end.

Sheep Netting EasyNet

50m x 105cm	215 377	\$279.00	\$249.00
-------------	---------	---------------------	-----------------

EasyNet electrifiable netting especially for grazing sheep. The advantage of this netting is that the bottom wire is 19cm above the ground. This allows sheep to graze under the wire (carefully), and also allows mowing under the wire if required. This significantly reduces power loss through grass growing into the wires. Also, with wires all clear of grass, the netting fence is more easily moved. The 50m fence includes 15 fibreglass standards, plus verticle spacer bars every 90cm. Fence lengths can be connected together for longer runs.

Netting Fence Repair Clips

2-way 10-pack	215 418	\$25.95	\$22.95
3-way 5-pack	215 420	\$21.95	\$19.95
4-way 5-pack	215 421	\$25.95	\$22.95

Our repair clips are the easy way to repair electrified netting fences. Just slip the broken ends into the open holes of the clip, then slide the plastic sleeves over the folded wire. This device is quick and easy to fit, and gives certain continuity of current. Don't sweat little knots anymore.

Sheep Netting Repair Kit

211 826	\$10.95
---------	----------------

Kit of spare nylon plus insulators and connectors, for repair of damaged electrified fence netting.

PRICE REDUCED

Dressing Shear B&B

30cm	218 569	\$54.95	\$47.95
------	---------	--------------------	----------------

This Burgon of Ball (UK) shear is ideal for dressing and showing. It can be used in one hand, leaving the other free to puff the fleece and remove cut wool. The carbon-steel blades are hollow-ground for most effective and efficient cutting. Blades are 15cm long and hardened and tempered for edge retention. An easy-to-use closure lock is incorporated. Length 30cm o.a.

Salt Block Saver Wall-Mount

23cm x 15cm	220 280	\$14.95
-------------	---------	----------------

Ideal feeder/saver for smaller salt and mineral blocks. Especially suitable for sheep and goats. Easily mounted on a wall or rail where it will not be pushed around or trampled. Tough impact-resistant plastic. UV safe. (Mount screws not included).

ASEPTIC TREATED

Marking Rings Shoof (Green)

100-bag	207 518	\$4.95
500-pail	207 520	\$16.95
