### Feed Bucket Wall Mount 20 litre

bucket only 202 840 \$49.95  
bracket only 202 839 ~~\$12.95~~ \$9.95

Our wall mounting bucket is a big heavy quality plastic bucket. The back side is flat and incorporates a strong clip area which locates onto the special wall bracket. The bucket has volume graduations marked inside, and also has a good strong steel handle which will not come off. The mount bracket has two 10mm holes in the back for bolting to a wall, post or rail. To attach, the bucket is simply dropped downwards onto the bracket, where it is held securely. To detach, just lift the front of the bucket and it will release. A very tidy set-up. Put extra brackets where you might need them.

**PRICE REDUCED**

### Feed Bucket Rail Hanging 11 litre

202 837 ~~\$29.95~~ only \$26.95

The 11 litre rail bucket has been designed especially as a 'show feeder'. The rail hooks are very slim to fit between the vertical bars of show stalls. The buckets also stack very neatly for storage or transport. Hooks are 60mm deep. A carry handle is incorporated. Dimensions: 29cm x 29cm x 24cm deep o.a. Bowl drain plug option available.

**PRICE REDUCED**

### Feed Bucket Rail Hanging 13 litre

202 838 ~~\$34.95~~ only \$29.95

This rail-hanging bucket incorporates rail hooks of a reinforced shape which will take the sort of pushing around a horse or cow is likely to give it. The 57mm (2 1/4") hook space is big enough to go over our standard 50mm (2") rough-sawn timber rails. The back of the bucket incorporates a carry handle. Dimensions: 30cm x 30cm x 26cm deep o.a. Bowl drain plug option available.

**PRICE REDUCED**

### Feed Bucket Rail Hanging 30 Litre

210 069 ~~\$54.95~~ only \$49.95

This big sturdy bucket incorporates 4 reinforced rail hooks to cope with rails up to 60mm thick. Bucket incorporates a carry handle, and stacks for storage. Dimensions: 43cm x 34cm x 31cm deep. o.a. Bowl drain plug option available.

**PRICE REDUCED**

### Stable Feed Trough 12 litre

### Thermometer Infra-red

212 773 \$99.95

Taking the temperature of any surface can now be a non-contact process. Just aim this instrument at the required surface, press the trigger and current temperature will be displayed. Particularly ideal for hot, hazardous or hard-to-reach objects, up to 2m distant. This thermometer can be used to determine temperature of animals or reptiles, and further to determine an actual area on the animal that has extra heat in it. Read temperature in °C or °F. Range -32°C to 300°C. Auto power-off. Powered by 9v battery.
